

## Student Code of Conduct

Thank you for supporting Mind Medicine Australia (MMA) and registering for the Certificate in Psychedelic-Assisted Therapies (CPAT). We will complete your registration upon payment and completion of this form.

Mind Medicine Australia is seeking to establish safe and effective psychedelic-assisted therapies for the treatment of mental illness in Australia. MMA is focused specifically on the clinical application of medicinal psilocybin and medicinal MDMA for the treatment of certain mental illnesses.

**We do not advocate for recreational use of psychedelics, MDMA, or any other prohibited substances\*, nor do we advocate for any changes to the law with respect to recreational use. Our focus is wholly clinical.**

Mind Medicine Australia requires allied health professionals, psychotherapists and general participants wishing to participate in the Certificate in Psychedelic-Assisted Therapies to agree to the following Code of Conduct during the professional development program.

### Participants will not:

- Distribute or administer illegal substances to clients or event attendees or advise them where to obtain such substances.
- Refer anyone to underground practitioners who provide services involving the illegal use of substances, or personally offer such services.
- Discuss any illegal psychedelic practices they may have been involved in.

### Attendance Requirements:

- You agree that you will make every effort to attend all lectures/webinars, to carry out any required set tasks and/or projects.
- You agree that attendance of the three intensives is essential to this program and not negotiable. Failure to attend will result in non-compliance with essential program elements being recorded.
- You agree that attendance at these events will be at your own risk, and that MMA or any staff or teachers will not be liable in the event of accident or injury.
- If you fail to attend and complete required tasks and/or projects you will be asked to leave the program without compensation or reimbursement.

Failure to follow these guidelines could result in losing a place in the CPAT program.

Thank you for working with us to ensure that we deliver a high quality, safe and reputable CPAT program.

***I have read, understood and agree to the Terms & Conditions of the CPAT (please tick)***

I agree to adhere to the Mind Medicine Australia Code of Conduct.
