

## MIND MEDICINE A U S T R A L I A

Mind Medicine Australia (MMA) recommend that you seek professional support from a medical professional to determine your bio-psycho-social-cultural and spiritual needs prior to travelling overseas to take psychedelics in a legal setting. The following overseas centres operate in a legal context. However, MMA cannot be held responsible for your treatment at these centres.

Fort Collins, Colorado

**Craig Salerno Counseling**

<https://craigsalernocounseling.com/>

Boulder, Colorado

## **MDMA & LSD**

Right now, MDMA and LSD are illegal in most countries and have no accepted medical uses. However, there is ongoing research on MDMA's value in psychotherapy for individuals with post-traumatic stress disorder as well as exploratory research on other potential uses. LSD is currently being investigated for its effects on anxiety as part of LSD-assisted psychotherapy. To see what studies and clinical trials are currently recruiting participants, check the Multidisciplinary Association for Psychedelic Studies' website.
